IDFC Facility Toolbox Webinars

Training on Greenhouse Gas Accounting and Green Finance Instruments

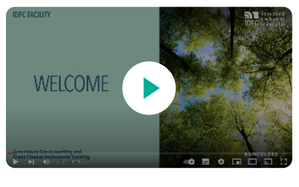

Welcome to the IDFC Facility training on Greenhouse Gas Accounting and Green Finance Instruments. In this toolbox, you will find inputs and tutorial sessions recorded during the training in Bogota, hosted by Bancoldex from May 7th to 9th, 2024.
You will explore biodiversity and nature conservation, carbon accounting, and data collection and measurement.
The objectives of the training week were to enhance the technical and financial capacity of IDFC members in tracking progress and better informing decision-making about climate change by:

- Building and strengthening the hard skills and competencies of members in understanding climate risks of investments and their relevance for operations.
- Identifying core links between sustainability issues, finance, climate, and biodiversity topics.
- Providing knowledge for strategic (client) dialogue to develop business opportunities and strategic direction.
- Improving the performance of climate experts, offering IDFC members (and external guests) visits to inspiring sites.

Tools & Software for Carbon Accounting

VIDEO

This session provided participants with a sneak preview of the IDFC Tool, a cutting-edge solution designed to streamline carbon accounting...

Workshop Activity - Drafting a Carbon Inventory

VIDEO

In this interactive workshop, participants engaged in drafting a comprehensive carbon inventory. Guided through the practical aspects of carbon...

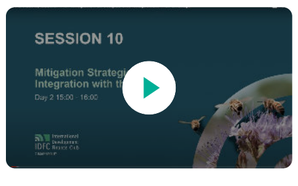

Panel Discussion – IDFC Member's Experience in GHG Accounting

VIDEO

During this panel discussion, IDFC members shared their valuable experiences in greenhouse gas (GHG) accounting. Experts from various financial...

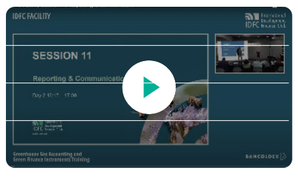

Mitigation Strategies and Integration with Strategy

VIDEO

Participants explored mitigation strategies and their integration into organizational goals. The session covered carbon reduction strategies, emphasizing...

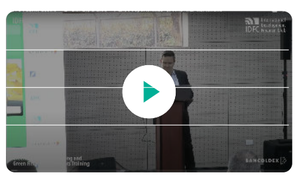

Reporting & Communication

VIDEO

This session focused on the critical aspects of reporting and communication in carbon accounting. Participants learned to craft effective clarity...

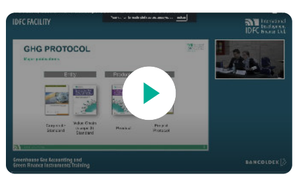

Climate & Green Finance Opportunities for Financial Institutions

VIDEO

Participants discussed the importance of incorporating climate and nature principles into investment decisions, risk management practices...

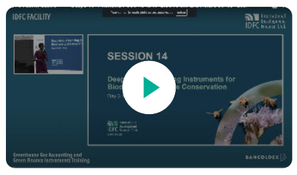

Financing Instruments for Climate & Biodiversity

VIDEO

This session explored the landscape of biodiversity finance, highlighting significant challenges and barriers investors face, such as the difficulty in...

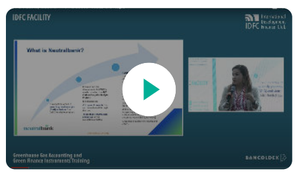

Deep-Dive - Financing Instruments for Biodiversity and Nature Conservation

VIDEO

Participants took a comprehensive look into various biodiversity finance instruments, including Panda Bonds, Rhino Bonds, Blue Bonds, and Transition...

Debt for Nature Swaps

VIDEO

In this session, participants explored the concept of debt-for-nature swaps, where a portion of a developing country's foreign debt is forgiven in...
