The Common Principles:
a new series of 9 e-learning videos

Strengthening Green Finance Tracking for advanced Green Finance Mapping

By adopting best-in-class, robust tracking framework like IDFC/MDB Common Principles on mitigation and adaptation, which form the basis of the Green Finance Mapping (GFM), the IDFC members can ensure their reporting aligns with the GFM initiative in a common, consistent, transparent manner.
The IDFC Facility, in collaboration with the Climate Policy Initiative (CPI), launched a strategic project aimed at designing and implementing a comprehensive capacity-building programme over the 2023-2026 period.
The project is designed to empower IDFC members with the knowledge and tools necessary to accurately track and report green finance commitments.

A New Capacity-Building Initiative

To further support IDFC members and technical experts from Public Development Banks involved in the purpose of Green Finance Tracking, the IDFC Facility has developed an innovative learning programme that includes :

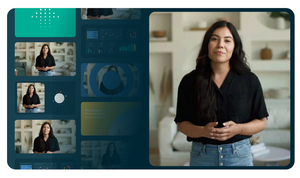

- **Annual dedicated workshops**
- **Two comprehensive methodological guidelines** - General Guidance and Sectoral Guidance - to equip you with **enhanced tracking tools, decision trees, and sector-specific guidelines** to streamline reporting processes and ensure standardization across key sectors like **energy, transport, water, agriculture, and urban development.**
- **An audio visual e-learning experience** with a series of **9 short videos**, designed to provide a solid foundation before delving deeper into the guidelines.

Your Learning Journey in 9 e-Learning Videos

The series provides an in-depth exploration of the methodologies and tools essential for **enhanced Green Finance Tracking**. The series is structured as follows :

General Guidance for Tracking Green Finance (4 Videos)

1. Introduction to Green Finance Tracking

YOUTUBE CHANNEL LINK

https://youtu.be/1aLWLgddgls?feature=shared

---

2. Climate Mitigation Finance

YOUTUBE CHANNEL LINK

https://www.youtube.com/watch?v=v7u_LYCXeU8

---

3. Climate Adaptation Finance

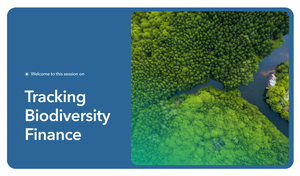

YOUTUBE CHANNEL LINK

https://youtu.be/v7u_LYCXeU8?feature=shared

---

4. Biodiversity Finance

YOUTUBE CHANNEL LINK

https://youtu.be/nJNQtVYLlFM?feature=shared

Sectoral Guidance for Tracking Green Finance (5 Videos)

Energy | Urban Development | Water | Transport | AFOLU*

**Agriculture Forestry Other Land Use & Fisheries*

5. Energy Sector

YOUTUBE CHANNEL LINK

https://youtu.be/Vu55t8xdscE?feature=shared

---

6. Water Sector

YOUTUBE CHANNEL LINK

https://youtu.be/B1KEXavIVOs?feature=shared

---

7. Transport Sector

YOUTUBE CHANNEL LINK

https://youtu.be/bVFmeNL0l14?feature=shared

---

8. AFOLU & Fisheries Sector

Our recommendation

1. Watch all the videos to get a complete overview of the methodologies across all sectors

2. Share the videos with other interested colleagues

3. Visit the Knowledge Library in the IDFC website to find out more :
   - The General Guidance for Tracking Green Finance
   - The Sectoral Guidance for Tracking Green Finance

4. Contact us at secretariat_idfc@afd.fr or ddrazenovic@hbor.hr to register to the next workshop on the Common Principles

Join us in this journey towards a more sustainable future !
