Our mission

Founded in 2011 the International Development Club (IDFC) is a global network of **26 leading national, regional and international development banks** from all over the world. IDFC members are working together to implement the Sustainable Development Goals & the Paris Climate Agreement agendas, joining forces as a platform to promote and leverage Sustainable Development Investment worldwide.

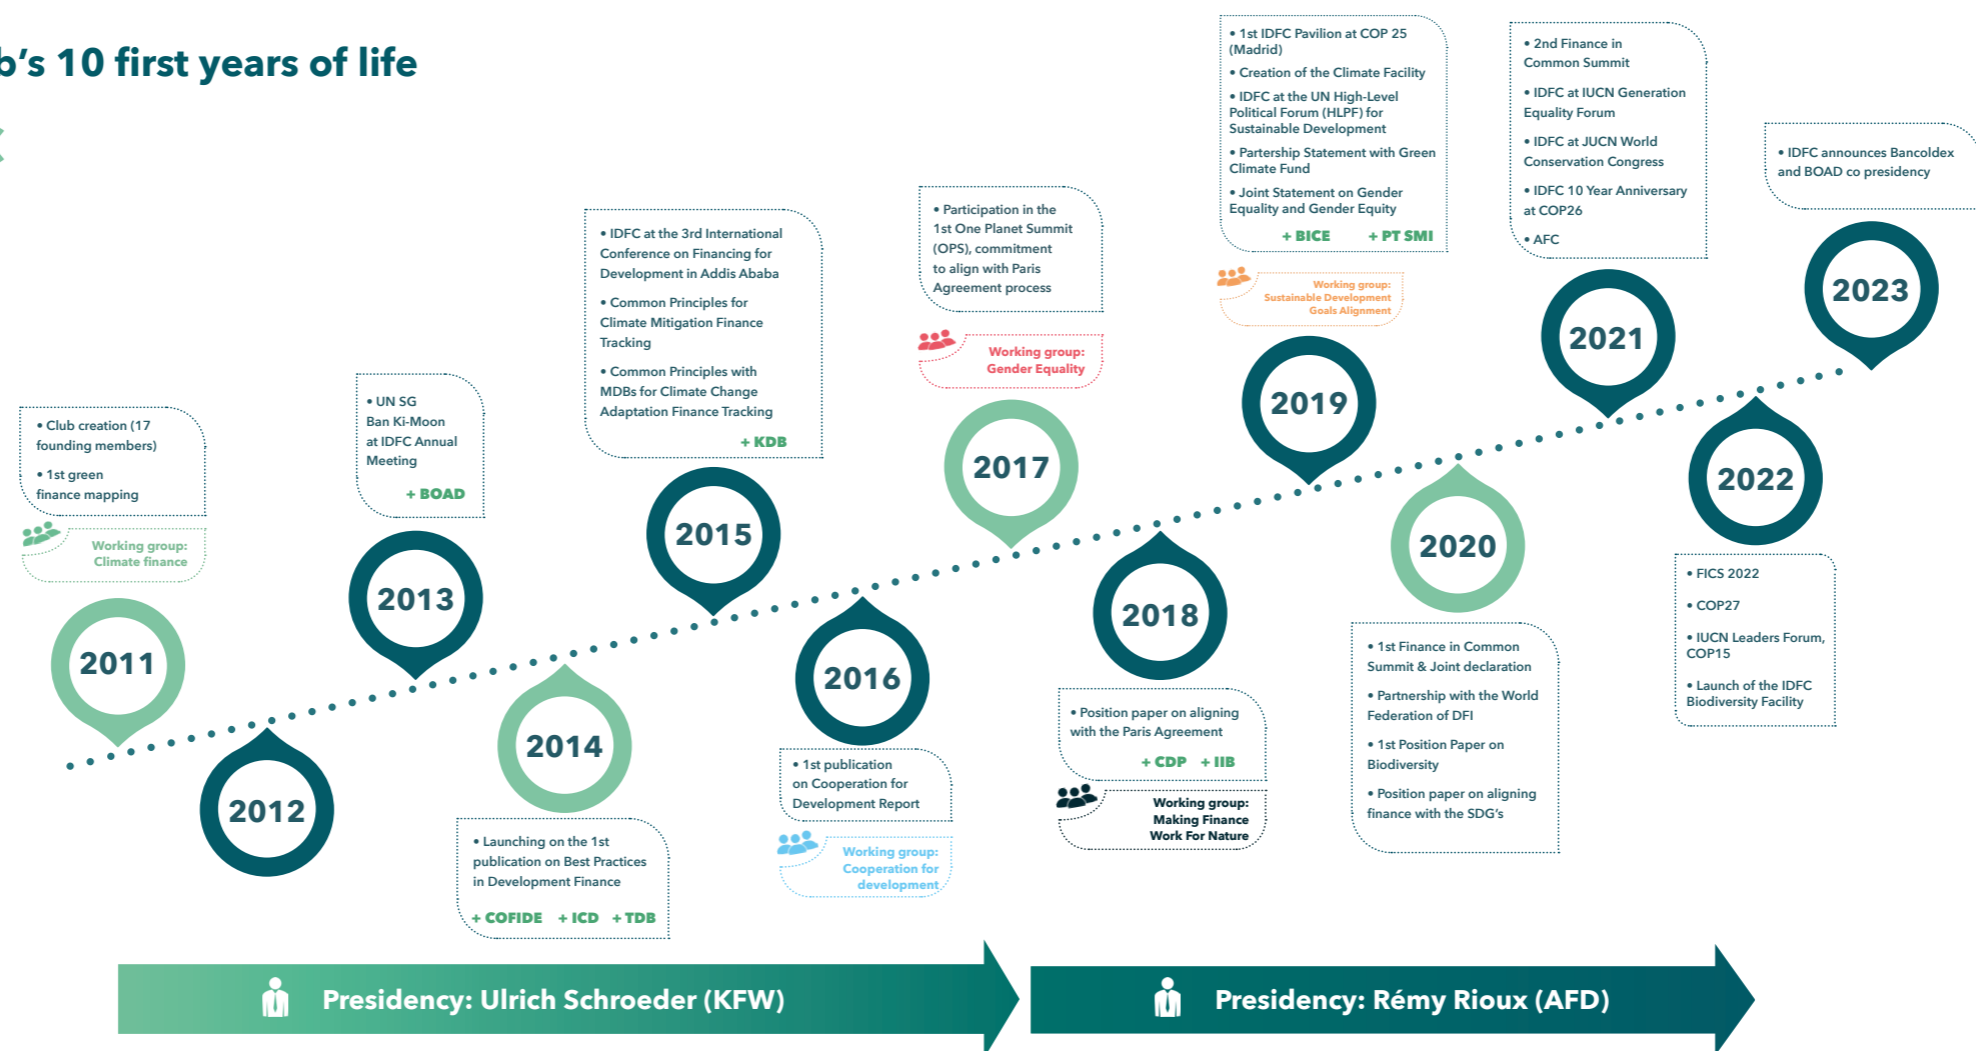

Our goals

- **Knowledge sharing and capacity building** on measuring and mainstreaming climate and SDG finance among members
- **Pursuing advocacy on the role of public development banks (PDBs)** and the redirection and alignment of financial flows towards the SDGs as well as Paris Agreement's objectives
- **Increasing cooperation between members** and easing access to project preparation and project financing

Historic Milestones of the Club's 10 first years of life

IDFC MAIN HISTORIC MILESTONES

The Club's current working groups and activities:

CLIMATE FINANCE

The Climate finance Working Group is echoing with the Club genesis and its commitment to implement the the Paris Agreement. **The Green Finance Mapping**, a report initiated with the creation of the Club in 2011, is one of IDFC's most important and renowned publications. It illustrates the contributions that IDFC members provide to green and climate finance.

CLIMATE FACILITY

In addition, the Club has developed knowledge and tools on **aligning finance with the Paris Agreement** and a strategic and long lasting **partnership with the GCF** to leverage on the role of public development banks in achieving global climate finance goals. The IDFC is joining the dialogue in the international fora on climate by coordinating a pavilion at COP since 2019. Started in 2019, the **Climate Facility** is the Club's operational and innovative tool to strengthen knowledge and leverage resources in the field of climate change mitigation and adaptation, including:

1. **Strengthening climate finance expertise and capacities** of IDFC members
2. Institutionalizing and **facilitate collaborative work** among members on climate change
3. **Originating and developping joint climate projects**
4. Increasing opportunities for members to **access international Climate Finance**

MAKING FINANCE WORK FOR NATURE

Resource mobilization and alignment of financial flows are key to build inclusive and equitable transformative changes that will halt biodiversity loss. Ensuring effective support of PDBs to Global Biodiversity Framework objectives and nature positive overall impact is a potential game changer and an on-going effort that needs strengthening, shared commitments, visibility and accountability. IDFC members are working on biodiversity finance tracking methodologies, biodiversity mainstreaming as well as on climate-biodiversity nexus to reach holistic solutions for the planet.

SDG ALIGNMENT

The SDG alignment working group is advocating on the catalytic role that Public Development Banks (PDBs) play to reach the objectives set in the 2030 Agenda. The group is also developing conceptual framework as well as guidance, tools and processes to help IDFC members operationalize the SDGs in their practices. In parallel, the group is promoting a dialogue with other stakeholders of the ecosystem as the private investors in order to develop a common language around the definition, tracking and accounting of climate and SDG-aligned finance and investment.

GENDER EQUALITY

The Gender Equality Working Group is focusing on eliminating gender-based inequalities (pay gaps, women's role in decision-making processes, work-life balance, access to non-traditional jobs, and sexual harassment at work) both within Members' internal institutional practices and external operations.

The Working Group has been committed to mainstream Gender Equality in all Members' activities, to seek solutions on how to address the ongoing challenges that they are facing and to increase impact on women employment in public or private sector.

COOPERATION FOR DEVELOPMENT

The Cooperation for Development Working Group has 3 main objectives: (i) to share knowledge and experiences (as a laboratory) ; (ii) to map existing cooperation between IDFC members (technical cooperation as knowledge sharing, capacity building, technical assistance and financial cooperation) ; (iii) to identify new area of cooperation, to explore synergies and to foster co-financing within the Club.
